London, December 9.

Yesterday arrived two Mails from Holland, and two from Flanders.

Constantinople, October 29.

On the 19th Instant the Ports received an Express, with the News, that the City of Erivan in Persia had at last surrendered to the Ottoman Forces, who had closely blocked it up for three Months together; during which Time, 37000 Men perished either by the Sword or Famine, and the Remainder, amounting to 35000, partly Citizens and partly Soldiers, had been allowed to go to some other Places, under a strong Guard. The Aga whom the Seraskier Asifé Mehmet Bacha had sent with this great News, has also brought with him the Keys of that City, together with the Sword which they pretend was left there 100 Years ago by the Sultan Amurath IV. when Abbas, the Sophy of Persia, retook that Place from him. The Prime Minister immediately imparted that joyful News to all the Foreign Ministers, intimating at the same Time, that it would be very agreeable to the Sultan, if they would concur in the publick Rejoycings upon that Occasion.

Lisbon, Nov. 25. On the 19th Instant at Six in the Afternoon, there arose a violent Hurricane of Wind, which lasted till Eight a-Clock the same Night. During that time above 60 Ships were driven ashore, of which at least 20 are rendered incapable of putting to Sea. Six of his Portugues Majesty's Men of War are very much damaged, and one of them of 80 Guns called Nossa Senhora da Conceicao is so stuck on the Shore, that it is believed scarce possible to get her off. All the Wharfe of Lisbon have suffered considerably by this Storm; and part of the Custom-House Key with the Goods upon it, was washed away by the Violence of the Waves. The Houses in Lisbon were very much damaged, most of the Churches have lost their Steeples or Towers. The Havock has likewise been universal in the Country round about; many Houses have been blown down, and almost all the Trees that stood exposed to the Wind, were torn up by the Roots. The Damage by this Tempest, is generally computed to exceed a Million Sterling. On the 20th His Britannick Majesty's Ship the Solebay entered this Harbour from Newfoundland.

 They have near these 30 Years been used and admired by both Sexes of the best of Quality, and many Thousands of Gentry and others, for making the Skin so delicately soft and smooth, as not to be parallel'd by any Wash, &c. of any kind, or Form, or any Wash-Ball, notwithstanding what is said to the contrary by Pretenders, for these Balls are indeed real Beautifiers of the Skin, by taking off all Deformities, as Tetter, Ring-worms, Morphea, Sunburn, Scurf, Pimples, Pits or Redness of the Skin, and keeping it of a lashing and extreme Whiteness. They soon alter red or rough Hands, as admirable in flaying the Head, they not only give a more exquisite sharpness to the Razor, but so comfort the Brain and Nerves, as to prevent catching Cold. They are of a great and pleasant Scent, without the least Grain of Mercury, and may be eaten for their Safety.
